A scatter plot showing the distribution of data points in a 2D space. The points are colored in a gradient from dark purple to light yellow. A small blue 'x' marks a specific point within the cluster.

A scatter plot on a white background with a black border. The plot shows a cluster of approximately 15 circular points in the upper right quadrant. The points are colored in a gradient: two dark purple points at the top, followed by teal and green points, and a few yellow-green points at the bottom of the cluster. A blue 'x' mark is positioned below the cluster, towards the left side of the plot area. The axes are represented by black lines with tick marks, but no numerical labels are present.
