A scatter plot showing a cluster of data points in the center of a 2D coordinate system. The x-axis and y-axis both range from -20 to 20, with major tick marks every 5 units. The data points are colored according to a vertical color bar on the right, which ranges from 5 (dark purple) to 9 (yellow). The points are concentrated in a small region around (4, 4). A single blue 'x' marker is located at approximately (2, 1).

A scatter plot showing the relationship between 'year' (x-axis) and 'number' (y-axis). The x-axis ranges from -20 to 20, and the y-axis ranges from 0 to 10. Data points are colored according to the 'month' variable, with a color bar on the right indicating months from 5 (dark purple) to 8 (yellow). A blue 'x' marks the point at year = -2, number = 3.5.

A scatter plot showing data points in a 2D space. The x-axis ranges from -20 to 20, and the y-axis ranges from -20 to 20. A color bar on the right indicates values from 8 to 12. The data points are clustered in the center, with a blue 'x' marker at approximately (-2, -2). The points are colored according to the color bar, with values ranging from 8 (dark purple) to 12 (yellow).
